## **XMoodle.com production Cloud service launches at Online Educa**

1<sup>st</sup> December 2011: CAPDM Ltd. – leading European experts in XML based course production - launches its new **XMoodle.com** production Cloud service at Online Educa this year.

*“**XMoodle.com** is a new Software-as-a-Service Cloud application accessed via the Web and requiring no installation or up-front capital purchase,”* says Martin Smith, Founding Director of CAPDM Limited. *“It brings professional materials and online course production capabilities to the desktops of Moodle course development teams around the world.”*

With 7,600+ **Moodle** installations worldwide each supporting more than 1,000 students, the bulk volume production and loading of courses into **Moodle**, and the efficient creation of content rich course components have become significant productivity issues for support teams.

By using **XMoodle.com** to develop and manage course materials independently in XML and in the Cloud, it is very much more efficient to develop, package and batch load courses into **Moodle**, automatically generating the course structure, including forums, quizzes and question banks.

Hosted on Amazon EC2 Cloud servers and available for free for the first 60 days from **www.xmoodle.com**, **XMoodle.com** offers a low-risk and a practical path for education providers to invest in the benefits of single-source publishing with XML.

**XMoodle.com** will be demonstrated during the conference on CAPDM’s stand in the Wintergarden (Hall C) exhibition hall, and more information on it is available at [www.xmoodle.com](http://www.xmoodle.com).

Also see Martin Smith, Managing Director of CAPDM present “Single-source courses – The Future of Educational Publishing” during session CON44 in the Davos room on Thursday, December 1, 2011 - 16:30 - 17:30.

### About CAPDM Ltd.

Founded in 1996 by a team with international experience in electronic publishing, information standards and distance learning, CAPDM deploys cutting edge Web and XML technologies to produce, manage and deliver market leading programmes of online learning. Amongst our diverse portfolio CAPDM are responsible for producing and managing the world’s largest on-line MBA distance learning MBA programme.
